ACCEPTED FILES

<i>InkJet accept PC or Mac platform in:</i>	<input type="checkbox"/> Adobe Photoshop	psd, pdf, tif, high quality jpeg, sct, eps
	<input type="checkbox"/> Adobe Illustrator	ai, eps, pdf
	<input type="checkbox"/> Adobe InDesign	indd, eps, pdf
	<input type="checkbox"/> Adobe Acrobat	pdf
	<input type="checkbox"/> If you use any other program to create your artwork export your artwork as .eps, .pdf, .ai or .tif	

HOW TO PREPARE YOUR FILE?

<i>Artwork for general products</i>	<input type="checkbox"/> Fonts used in the files should be converted to curves / outlines.
	<input type="checkbox"/> Convert files and support files to CMYK (Except for Photographic prints - CMYK /RGB).
	<input type="checkbox"/> Photoshop layers should be flattened and provide die cut lines as Illustrator (.ai) file (if applicable).
	<input type="checkbox"/> Vector files should include PMS color info and die cut lines on a separate layer (if applicable).
	<input type="checkbox"/> Vector (Illustrator/Acrobat) files should be submitted with embed links in High Res.
	<input type="checkbox"/> Add bleed all around (3" bleed for Billboards and Banners) with bleed marks and crop marks.
	<input type="checkbox"/> Use Rich Black (75% C, 75% M, 75% Y, 100% K) instead of Black (0% C, 0% M, 0% Y, 100% K).
	<input type="checkbox"/> Vector artworks for larger print dimensions should be created at 25% / 50% scale or 1'=1" ratio.
	<input type="checkbox"/> Photoshop files should be created 1' = 1" ratio @ 300 dpi Res. to produce prints at 150 dpi.
	<input type="checkbox"/> Photoshop files should be created 1' = 1" ratio @ 1200 dpi Res. to produce prints at 300 dpi / 600 dpi.
	<input type="checkbox"/> Please provide a hard copy of artwork for color proofing with PMS # marked (if applicable).

HOW TO SEND YOUR FILE? - Make a single compressed (Stuffit / Winzip) file for faster processing.
